Analysis of prior sale or transfer history of the subject property and comparable sales The subject has transferred within the last 36 months. Previous transfer noted as transferring from one builder to the other. No additional information provided. Prior sales of the comparables have not occurred in the last 12 months per the public listing system.

Summary of Sales Comparison Approach See Addendum.

Indicated Value by Sales Comparison Approach $ 495,000

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 495,000 **Cost Approach (if developed) $** 492,022 **Income Approach (if developed) $** 0

See Addendum.

This appraisal is made ☐ "as is", ☒ subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, ☐ subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or ☐ subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: Subject to the dwelling being completed.

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 495,000 **, as of** 10/09/2026 **, which is the date of inspection and the effective date of this appraisal.**

ADDITIONAL COMMENTS

SCOPE OF WORK:

The appraiser discloses that the walk through observation doesn't entail any or all verification of the structural integrity and soundness of the subject that is not visible or that requires any invasive inspection or improvements of the subject property. This appraiser is not a licensed inspector, should the client choose to verify and confirm the integrity of these above mentioned items, it is the clients responsibility to locate and contract with a licensed inspector and/or contractor to verify this items.

This appraisers scope of work includes but is not limited to determining if the subject is livable and/or habitable. The provided definition of livable/habitable per Webster Dictionary states: suitable and fit for a person to live in: free of defects that endanger the health and safety of occupants.

This appraiser is not a licensed inspector and to verify the satisfactorily condition of unseen areas, a licensed inspector should be consulted. This appraiser is not an expert in the field of mold, infestation or any other hazardous substance and cannot confirm or deny the existence of any. This appraiser discloses that I lack the qualifications necessary to render a definitive opinion on infestation, mold, or other hazardous conditions, materials or surfaces and therefore this item has been left blank if it is not obvious with a remedial observation. Any items that are unapparent or beyond the expertise of the this appraiser, it is recommended that the client contract a licensed inspector.

The data sources searched for the completion of this appraisal are relied upon for the completion of this report and include but are not limited to: Public record, Multiple Listing System, Home Owner, Listing and Selling agents, Client information, Sales Archive History and documentation provided by outside sources. It is reasonable to expect that this information is deemed reliable but cannot be guaranteed, there is the possibility of reporting based on incorrect data per public record sources, typographical error and dated information as of the date of the observation. This appraiser has reported all data as supplied and reported by the data sources named previously.

Comments and conditions of the appraisal: The value conclusion reported in the attached appraisal reflects the market value of the described real estate only and does not include any items of personal property, free standing fixtures and equipment, or intangible items.

Legal description: FIRREA requires that a legal description be attached as part of this appraisal. No survey, deed, title policy, legal description, or plat of survey was made available to this appraiser. Also, the complete legal description is not available on the line from the assessors office. it is outside the appraisers expertise to compose a legal description. FIRREA has a provision for instances when legal description information is unavailable to the appraiser. Since this information is not available, the appraiser is unable to provide a complete legal description.

A personal observation, not to be confused with an inspection of the property that is the subject of this report has been made. This observation and this report is not to be confused with an inspection report.

COST APPROACH

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value) Extraction: A method of estimating land value in which the depreciated cost of the improvements on the improved property is estimated and deducted from the total sale price to arrive at an estimated sale price for the land; most effective when the improvements contribute little to the total sale price of the property. Land sales have been included to support site value also.

ESTIMATED ☐ REPRODUCTION OR ☒ REPLACEMENT COST NEW

Source of cost data: Marshall & Swift Cost Estimator

Quality rating from cost service: Avg Effective date of cost data: 06/2026

Comments on Cost Approach (gross living area calculations, depreciation, etc.)

The cost approach is averaged based on the Marshall & Swift Handbook, however the cost approach was developed based on the clients request and is reliable due to the subjects age.

PUD INFORMATION

PROJECT INFORMATION FOR PUDs (if applicable)

Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☒ No Unit type(s) ☒ Detached ☐ Attached

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal Name of Project

Total number of phases Total number of units Total number of units sold

Total number of units rented Total number of units for sale Data source(s)

Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion.

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data Source

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing the appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Analysis of prior sale or transfer history of the subject property and comparable sales: The subject has not transferred within the last 36 months.Prior sales of the comparables have occurred in the last 12 months per the public listing system. Previous transfer appears typical for the market.

ANALYSIS / COMMENTS

Analysis/Comments

Market Conditions Addendum to the Appraisal Report

6014137
File No. 6014137

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 6451 STONE SIDE DR City PLAINFIELD State IN ZIP Code 46168

Borrower NISAR PANHWAR

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)	9	3	1	☐ Increasing	☒ Stable	☐ Declining
Absorption Rate (Total Sales/Months)	1.50	1.00	0.33	☐ Increasing	☒ Stable	☐ Declining
Total # of Comparable Active Listings	5	6	9	☐ Declining	☒ Stable	☐ Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	3.3	6.0	27.3	☐ Declining	☒ Stable	☐ Increasing
Median Sale & List Price, DOM, Sale/List %	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Median Comparable Sale Price	$490,000	$480,000	$475,000	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Sales Days on Market	164	1	105	☐ Declining	☒ Stable	☐ Increasing
Median Comparable List Price	$479,900	$502,450	$529,900	☐ Increasing	☒ Stable	☐ Declining
Median Comparable Listings Days on Market	42	37	108	☐ Declining	☒ Stable	☐ Increasing
Median Sale Price as % of List Price	96	100	101	☐ Increasing	☒ Stable	☐ Declining
Seller-(developer, builder, etc.)paid financial assistance prevalent? ☒ Yes ☐ No				☐ Declining	☒ Stable	☐ Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). The MIBOR MLS indicates there were concessions.

Are foreclosure sales (REO sales) a factor in the market? ☐ Yes ☒ No If yes, explain (including the trends in listings and sales of foreclosed properties).

The data used in the grid above does not indicate there were any REO/Short sales or other distressed properties associated with the reported transactions. However, this is not a mandatory reporting field for agents and there may be some distressed sales that were not reported. It is beyond the scope of this assignment to confirm each sale used in the Market Conditions Report.

Cite data sources for above information. The MIBOR MLS was the data source used to complete the Market Conditions Addendum. Effective Date: 10/09/2026.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

Effective Date: 10/09/2026. The 1004MC sheet is prepared and submitted per guidelines. However, to provide reliable statistical data the data total must consist of 30 sales and 30 active listings. There is less than enough data to provide a reliable conclusion.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project , complete the following: **Project Name:**

Subject Project Data	Prior 7–12 Months	Prior 4–6 Months	Current – 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				☐ Increasing	☐ Stable	☐ Declining
Absorption Rate (Total Sales/Months)				☐ Increasing	☐ Stable	☐ Declining
Total # of Active Comparable Listings				☐ Declining	☐ Stable	☐ Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				☐ Declining	☐ Stable	☐ Increasing

Are foreclosure sales (REO sales) a factor in the project? ☐ Yes ☐ No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

City	PLAINFIELD	County	Hendricks	State	IN	Zip Code	46168
Lender/Client	Union Home Mortgage-SP						

Total economic life - effective age = Remaining economic life

The use of hypothetical conditions may affect assignment results.

Appliances were present and functional at the time of inspection.

The certifications contained within this appraisal report were developed by Fannie Mae and Freddie Mac, not by this appraiser, specifically Certification #21 and #23. This appraisal was developed for no one else beside the specific client identified in the report and any intended user(s) also identified in the report. The intended use is for the client and intended users named in this report and is not be to used or relied upon by anyone else for any purpose. A party receiving a report copy from the client does not as a consequence, become a party to the appraiser-client relationship.

I certify that, to the best of my knowledge and belief: I have performed no (or the specified) other services, as an appraiser or in any other capacity, regarding the property that is the subject of the work under review within the three-year period immediately preceding acceptance of this assignment. I have no bias with respect to the property that is the subject of the work.

A full legal description was not attainable through normal course of business-reference title work for full description.

I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. The sales chosen for comparison are the most recent sales and the closest in proximity to the subject.

Site adjustments are not warranted when site size does not vary by more than a quarter acre. Site size is not bracketed due to the absence of a comparable sale with a greater site size. Effective age is believed to be similar and does not warrant an adjustment. Sales dated more than 6 months are utilized due to the absence of more recent comparable sales. Bathroom, garage and fireplace adjustments are based on a paired sales analysis. No bedroom or view adjustments are warranted based on a paired sales analysis. No concession adjustments are warranted due to being typical for the market. Sales located more than one mile are utilized in an attempt to include a sale from a competing builder.

Comparable one is weighted in the valuation process based on date of sale and location.

The gross living area is calculated $39 per sf if the overall difference is greater then 100sf. The 100sf difference takes into account differences in non living areas such as hallways, closets, laundry and baths.

The highest and best use for the property as required by USPAP standards Rule 2-2 (a)(x), considers the four tests for highest and best use, (legally permissible; physically possible; financially feasible; maximally productive). The subject meets all highest and be use tests for a residential improvement including legally permissible; physically possible; financially feasible; maximally productive.

RECONCILIATION:

Sales Comparison Approach: The Sales Comparison Approach is given the most consideration (weight) as it best reflects the actions of buyers and sellers in the subject’s market.

Cost Approach: The Cost Approach was developed at the clients request and included within the appraisal.

Income Approach: The Income Approach was not developed. Credible assignment results obtainable without income approach being developed.

• : Repairs, Alterations, Required Inspections: The mechanical systems were checked for functionality by the appraiser and appear functional. If this proves to be false, the appraiser has the right to change opinion or estimated value of this report.

I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

Appraiser Competency: The appraiser has knowledge and experience in appraising this type of property in this market area and is aware of, have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records, and other such data sources for the area in which the property is located.

Supplemental Addendum

File No. 6014137

Borrower	NISAR PANHWAR						
Property Address	6451 STONE SIDE DR						
City	PLAINFIELD	County	Hendricks	State	IN	Zip Code	46168
Lender/Client	Union Home Mortgage-SP						

SEARCH CRITERIA: 90 day, then 180 days and finally 12 months. The search also was made within the typical percentage guideline perimeters for size, age, style, acreage and amenity differences. Distance search was made within 5 miles in efforts of providing similar comparable sales or listings to the subject. Once the initial search within all the typical guidelines was exhausted, the search was then expanded in some or all of the pertinent areas to provide alternate comparable sales to the subject.

Market Trends: A study of the market within the subject defined boundaries has been made over the past 12 months in efforts of determining market trends. The data collection was obtained from closed sales and listings reported in the Assessor, Mibor BLC MLS and does not include unknown, private transactions.

The subject conforms to the neighborhood in size, age, style, acreage, amenities, etc and is not over built or under built for the market. The subject falls within the high/low sale price, size, age, style and amenities within its marketed boundaries. The sales and listings are given adjustments based on paired sales analysis, market demand and/or appraiser experience within the market. It may not always be possible to have every line item as a comparable; ie bed/bath counted, garages, extra amenities items. If this occurs, a 'reasonable' market adjustment is made based on appraiser experience within the market and 'typical' adjustments for the market are applied.

This Appraisal Report, as defined by the Uniform Standards of Appraisal Practice (USPAP), has been prepared for the Lender/Client, for mortgage purposes, and has been prepared in compliance with USPAP requirements. The typical market for concessions and or closing cost appear to be up to 3%. Any costs up and above this cost is considered a negative adjustment to the comparable sales.

This report contains digital photos and digital signatures. This report is intended for use only by the Lender/Client and their assignees. Use of this report by others is not intended by the appraiser.

Parties who receive a copy of an appraisal, appraisal review, or appraisal consulting report as a consequence of disclosure requirements applicable to an appraiser's client do not become intended users of the report unless the client specifically identifies them at the time of the assignment. If the lender/client assigns this appraisal report, the name on the appraisal shall remain the same as the original lender/client. Any need of a name change is required to have another order, another inspection, and report analysis made separate from this assignment.

This appraisal report is not a full home inspection and the appraiser is not a professional, licensed home inspector, engineer, or mechanical technician.

All comparables used in this appraisal report are closed sales unless otherwise stated. All information used in this appraisal report is considered reliable and collected via phone, fax, conversation with buyers, assessor , MLS Service, or other identified sources, and not the result of actual inspections of deeds, surveys, etc.

The employment of the appraiser was not conditional upon the appraisal producing a specific or predetermined value or value within a given range. It is not the intent of the appraiser to guarantee that the subject property would sell for the same price or a higher price at any time. The markets change constantly, and no one can predict the future market, being up, down, or constant. However, the estimated value as of the effective date of the report, is considered to be current data based on actual sales within the past 12 months. An appraisal is an opinion of value based on current sales and data, however the opinion may differ from other appraisers. This appraisal has no guarantee against title flaws in the subject property. Title insurance companies insure against these problems. Non-realty items are not included in the final estimation of value unless otherwise specified.

In no circumstance is the appraiser considered an expert on termite, census tract, flood information or insulation rating and adequacy. Information gathered by the appraiser for these fields should be considered reliable but not guaranteed. The appraiser cannot rule out the possibility of the following to any home: lead based paint in any home built prior to 1979, evidence of friable asbestos, functional utility of private water supplies or septic fields, and states I am not a termite expert with regard to their presence of lack thereof.

Land: At the time of inspection, the land improvements thereon have been examined, as far as possible by observation. It is not possible to observe conditions beneath the soil or hidden structural or mechanical components within the improvements. There were no obvious signs of negative influence at the time of inspection.

Other improvements: Conditions of heating, cooling, ventilation, electrical and plumbing equipment are considered to commensurate with the condition of the balance of the property unless otherwise stated. No extensive examination of the crawl space and/or attic areas were made, unless otherwise stated, and therefore it is assumed there are no major defects in those areas such as termite infestation, dry rot, or other unknown damage. There were no obvious signs of negative influence at the time of inspection.

1004MC Addendum: Is a study of 'comparable' sales to the subject in the past 12 months. The statistical data reported on page one of the URAR is a study of all the sales and listings that occurred in the defined boundaries in the past 12 months. The two studies are independent from each other and can vary from each other. DAYS ON MARKET: Based on the statistical data in the past 12 months, the 'typical' days on market reported is 3-6 months.

Supplemental Addendum

Borrower	NISAR PANHWAR						
Property Address	6451 STONE SIDE DR						
City	PLAINFIELD	County	Hendricks	State	IN	Zip Code	46168
Lender/Client	Union Home Mortgage-SP						

However, appraiser notes there are ongoing sales and listings both above and below the 'typical' DOM. DOM can by affected by initial list price, condition, amenities, appeal, competing listings, etc. PREDOMINATE SALE: The predominate sale price in the market is the 'most occurring' in the past 12 months. There are sales both above and below the predominate sale price and median sale price in the market based on size, age, style, appeal, acreage, amenities etc.

FIRREA Certification Statement: The appraiser certifies and agrees that this appraisal was prepared in accordance with the requirements of Title XI of the Financial Institutions, Reform, and Enforcement (FIRREA) of 1989, as amended (12 U.S.C. 3331 et seq.), and any applicable implementing regulations in effect at the time the appraiser signs the appraisal certification.

Appraiser Measurement Methodology: The subject was measured per the latest ANSI standards (ANSI Z765-2021).

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered “new” if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner’s site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:
3.2 indicates three full baths and two half baths.

MARKET ANALYSIS

powered by TrueTracts

Market area and submarket area definition: The appraiser employed a data-driven approach, powered by a machine-learning analytical tool, to define the Subject's Submarket and Market Area, and to identify Competing Submarkets. This tool groups properties based on similar relationships between home features and sale prices, independent of city, zip code, or census boundaries—eliminating any potential for arbitrary biases.

The appraiser used this data to define the Subject's Submarket, and applied filters like GLA and lot size to limit the analysis to only competitive properties.

Feature filters applied:

- **Basement Finished Area:** ≤ 2,000 sqft
- **Baths:** 2.5 - 5
- **Bedrooms:** 4 - 7
- **Garage Spaces:** ≤ 3
- **GLA:** 2,360 - 3,930 sqft
- **Lot Size:** 8,000 - 21,000 sqft
- **Stories:** 2 - 3
- **Year Built:** ≥ 2011
- **Sold Price:** $442,000 - $794,000 (Note: this price filter was only applied to remove extreme price outliers)

The tool then trains a statistical model on the past 5 years of competing home sales within the appraiser-defined Subject Submarket where it learns the specific relationship between features, time, and sale price within those boundaries. It then uses that model to predict the sale prices of surrounding properties, learning which areas are locationally similar to the Subject's Submarket. Since the model controls for feature and time differences, it is able to isolate locational value differences and generate an intuitive Heatmap where similar Competing Submarkets are indicated in green, inferior locations in blue, and superior locations in red.

Definitions:

Market Area - the broader geographic region where buyers consider alternative properties that compete with the subject in terms of features, price range, and market conditions. The market area includes the Neighborhood, Subject's Submarket, and Competing Submarkets. On the heatmap, it is represented by a thin green polygon.

Subject's Submarket - contains the subject property and the core group of competing properties that typically includes most of the selected comparables. It often aligns with the Neighborhood boundaries, though they may differ. On the heatmap, it is represented by a thick black polygon.

Neighborhood - a congruous group of complementary land uses. Often the same as the Subject Submarket (gold w/ black outline polygon). When the Neighborhood differs from the Subject Submarket, it is represented by a gold polygon. The appraiser can separately define this area to create a dataset specifically to be used to populate the following sections of an appraisal report:

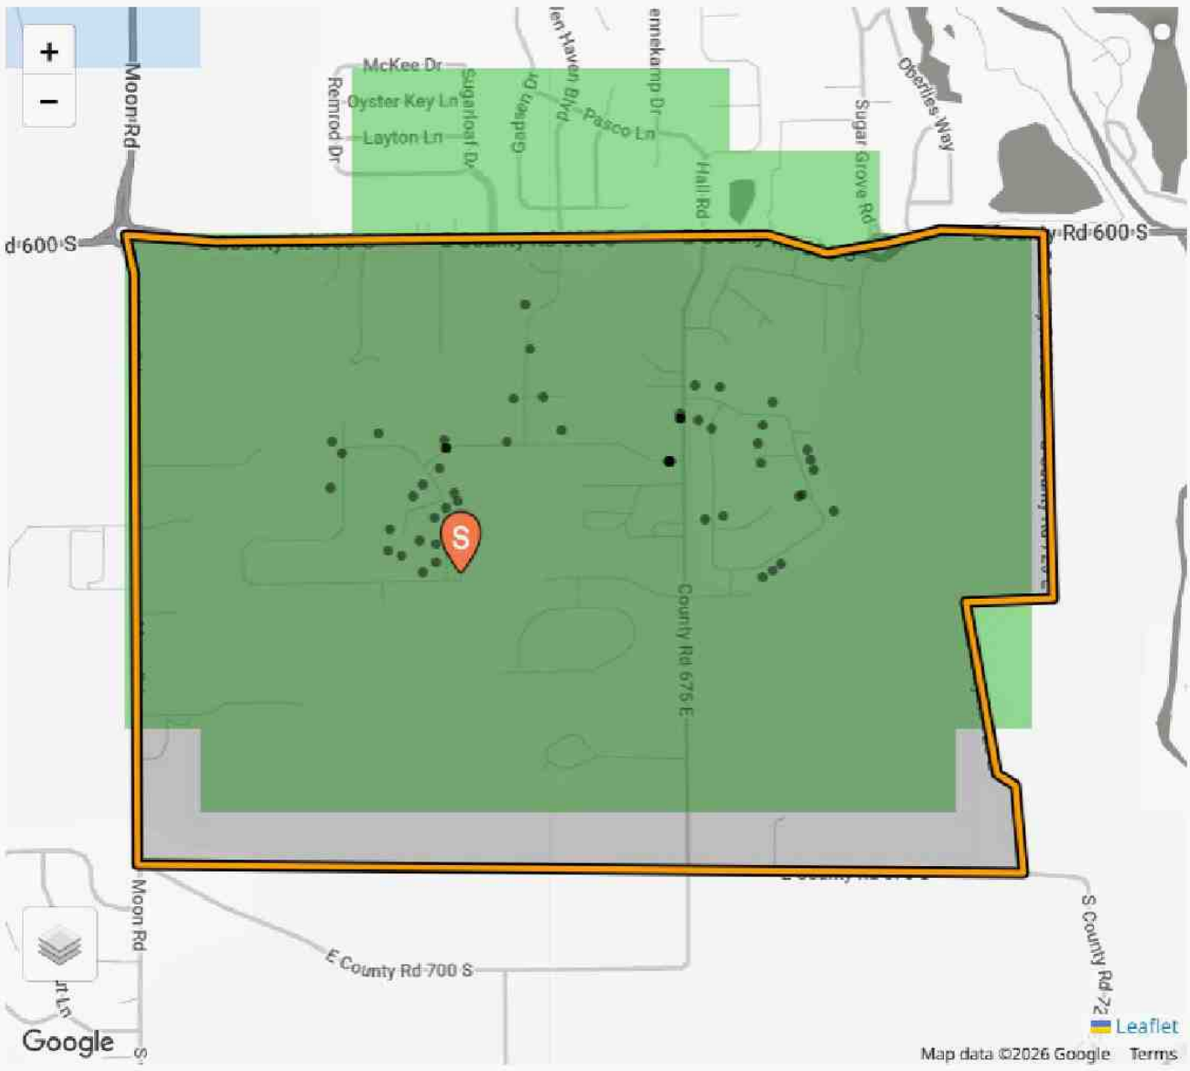

- Housing Price and Age ranges on Page 1
- Number of comparable listings and sales on Page 2
- The 1004MC form, if included

Competing Submarkets - groups of competing properties that are often crucial for providing sufficient data to establish credible market trends and meet three conditions:

1. They are located within the Market Area.
2. They have features that lie within the filters applied to the Subject's Submarket.
3. They appear in green areas of the heatmap, indicating similar locations.

The heat map on the next page visually represents this data.

Market Area Heatmap

Map Legend

Map Markers

- **Subject Property**
- **Black Dot:** A home that sold within the past 5 years. It lies within the appraiser's filters

Polygons

- **Subject's Submarket**
- **Subject's Neighborhood**
- **Subject's Submarket = Subject's Neighborhood**
- **Subject's Market Area**

Heatmap

- **Similar Location (<3%):** No location adjustments to comps necessary
- **Similar Location (3% - 6%):** Location adjustments to comps may or may not be necessary
- **Inferior Location (-6% or more):** Homes sell for less after adjusting for feature differences. The darker the blue, the bigger the difference
- **Superior Location (+6% or more):** Homes sell for more after adjusting for feature differences. The darker the red, the bigger the difference
- **White Area of Map:** No home sales within the past 5 years that lie within the appraiser's filters

Market Analysis and Time Adjustments: To analyze market conditions, identify trends, and calculate time adjustments, the tool gathers and utilizes data from home sales that:

- Are located within the appraiser-defined Market Area (green polygon)
- Have similar features (defined by the filters applied by the appraiser and reported above)
- Are in a similar Competing Submarket (green areas within the Market Area)

Instead of relying on raw sale prices, which can be misleading due to variations in home features, the tool applies a Generalized Additive Model (GAM) to adjust sale prices to account for feature differences before plotting the data and generating the trend line.

The tool fits a nonlinear curve to the data and calculates the time adjustment by comparing the average adjusted sale price at the comparable's contract date to the most recent month's average (see Monthly Time Adjustment Table below which shows the indicated time adjustment to apply to the Contract Month of the Comparable sale).

In line with the Fannie Mae Selling Guide, overall market trends in the Unit Housing Trends section of this report are based on competitive properties and reflect the overall movement of the market based on a minimum of 12 months of data. When insufficient sales exist within the subject's neighborhood, the dataset is expanded to include competing properties from Competing Submarkets in the broader market area. Also, in line with the Fannie Mae Selling Guide, the time adjustments made to the Comparables may differ from the overall trend.

Sale Price Trend

+1.2%
12-month change

Based on an analysis of 322 similar home sales over the past 12 months and 24 similar pending/contingent listings in the subject's market area, the average adjusted sale price has increased from $508,100 to $514,100, an implied change of +1.2%. Based on this information, the overall market trend has been reconciled to be relatively stable.

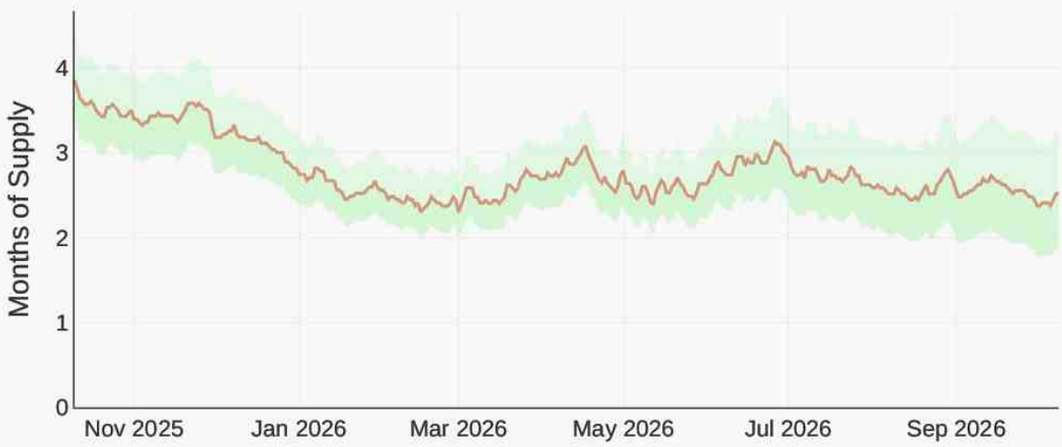

1 - 12 Months

Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep
+1.2%	+1.2%	+1.1%	+0.8%	+0.3%	-0.3%	-0.9%	-1.3%	-1.5%	-1.4%	-1.1%	-0.6%

Months of Housing Supply Trend

2.5 months
Current Supply

-1.3 months
12-month change

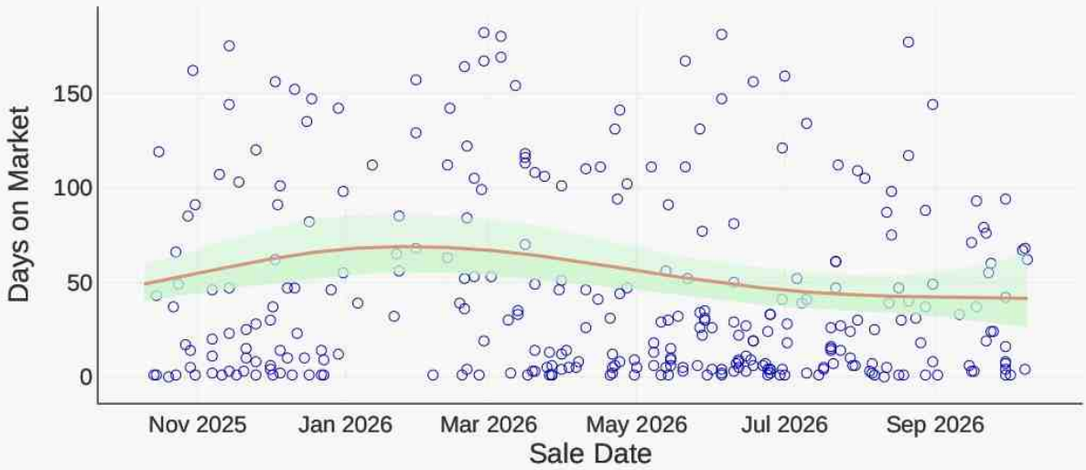

Based on an analysis of similar homes over the past 12 months in the subject's market area with statuses of Closed, Active, Pending, Cancelled or Expired, the average months of supply has decreased from 3.8 months to 2.5 months, an implied change of -1.3 months. Based on the current 2.5 months of supply, the supply of homes is In Shortage.

Marketing Time (DOM) Trend

42 days
Current DOM

-7 days
12-month change

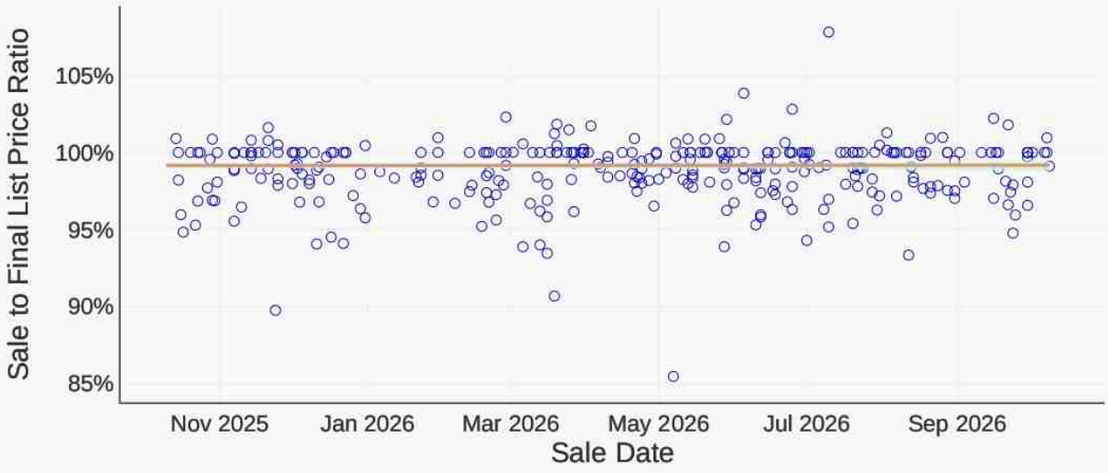

Based on an analysis of 322 similar home sales over the past 12 months in the subject's market area, the average Days on Market has decreased from 49 days to 42 days, an implied change of -7 days.

Sale to Final List Price Ratio Trend

99.2%
Current Ratio

+0.0pp
12-month change

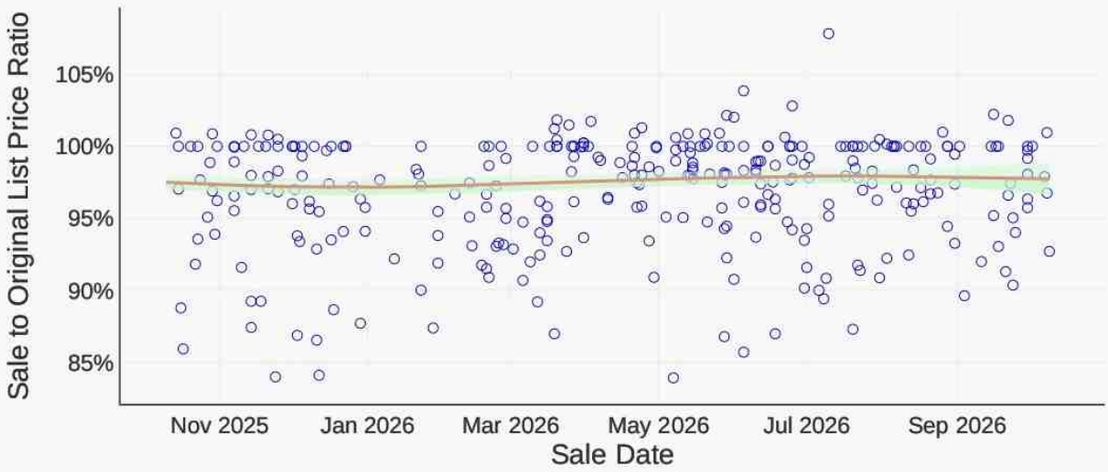

Based on an analysis of 322 similar home sales over the past 12 months in the subject's market area, the average Sale to Final List Price ratio has not changed from 99.2% to 99.2%, an implied change of +0.0pp (percentage points).

Sale to Original List Price Ratio Trend

97.8%
Current Ratio

+0.3pp
12-month change

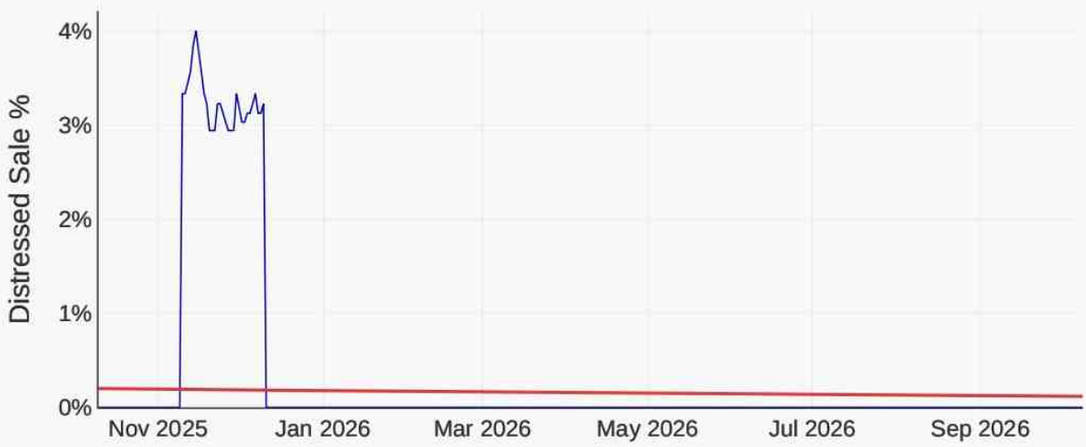

Based on an analysis of 322 similar home sales over the past 12 months in the subject's market area, the average Sale to Original List Price ratio has increased from 97.5% to 97.8%, an implied change of +0.3pp (percentage points).

Distressed Sales Trend

0.1%
Current Distressed %

~

-0.1pp
12-month change

Based on an analysis of 322 similar home sales over the past 12 months in the subject's market area, the percentage of Distressed sales has decreased from 0.2% to 0.1%, an implied change of -0.1pp (percentage points). Based on this information, the trend has been reconciled to be relatively stable.
