Analysis of prior sale or transfer history of the subject property and comparable sales No transfer of the subject in the past 36 months, comps in the past 12 months.

Summary of Sales Comparison Approach The subject site and improvements are compatible to other sites and improvements within the subject neighborhood. In the reconciliation of the sales comparison analysis weight is given to comp #1, the most similar recent sale (comp #1 has the least amount of gross adjustments). Note that in reconciliation of market value overall market conditions have been taken into account. Recent sales, under contract sales and active listings have also been considered. See Additional Comments for explanations about comparables utilized and adjustments made in the sales comparison analysis. Seller concessions (over the past 12 months) of $1,000 to $10,000 are typical/customary for transactions such as the sales utilized in this report, therefore no specific adjustment was made for said seller concessions.

Indicated Value by Sales Comparison Approach $ 975,000

RECONCILIATION

Indicated Value by: Sales Comparison Approach $ 975,000 **Cost Approach (if developed) $** 975,609 **Income Approach (if developed) $** 0

Most weight is given to the sales comparison approach to value, which the appraiser believes to be the most reliable indicator of market value for the subject property. This value is supported by the cost approach. The income approach was not utilized. See Additional Comments.

This appraisal is made [X] "as is," [ ] subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, [ ] subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or [ ] subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair:

Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is $ 975,000 **, as of** 10/12/2026 **, which is the date of inspection and the effective date of this appraisal.**

File # 26100022

ADDITIONAL COMMENTS

The appraiser has chosen the comparable sales from the subject property's marketing area that are the most similar, have the most reliable data, and best reflect current market activity. Adjustments are made based on market extraction of reasonable market reaction, in terms of dollars, to differences between the subject property and the comparable sales. Where there is a difference between the subject and the comparable sales that affects market value, the appraiser has attempted to bracket the particular feature in order to avoid all positive or all negative adjustments for a particular feature. Bedroom adjustments are not made in favor of GLA adjustments (where needed), thereby avoiding double adjustments. Comps in this are report selected for their similar location, lot size and GLA when possible.

COST APPROACH

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value)

Was the project created by the conversion of existing building(s) into a PUD? [ ] Yes [ ] No If Yes, date of conversion

Does the project contain any multi-dwelling units? [ ] Yes [ ] No Data Source(s)

Are the units, common elements, and recreation facilities complete? [ ] Yes [ ] No If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association? [ ] Yes [ ] No If Yes, describe the rental terms and options.

Describe common elements and recreational facilities

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.

2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.

3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.

4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.

5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.

6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.

2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.

3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.

5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.

6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.

7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.

8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.

9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.

10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.

11. I have knowledge and experience in appraising this type of property in this market area.

12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.

13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.

14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.

15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.

16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.

17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).

19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

4256253473
File # 26100022

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

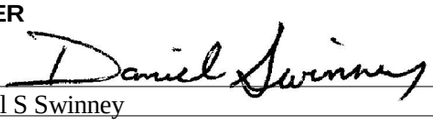

2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.

3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.

4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.

5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Lender or Client	Paramount Residential Mortgage Group						

SCOPE OF APPRAISAL

Where applicable, based on report for or type utilized, the appraiser has made a visual inspection of what is readily apparent. The appraiser has not moved, relocated or otherwise performed an intrusive or invasive inspection. The appraiser's 'inspection' is not to be considered to be the same as a home inspection by a home inspection expert, contractor, or tradesman. The appraiser has not tested any system such as electrical, plumbing, heating/air conditioning. The appraiser will only report what was observed.

Personal property was not afforded any value in in this report.

The appraiser is not an expert in environmental hazards or conditions and is not qualified to comment on such matters. The appraiser has only general knowledge in matters relating to soil, structural, or other engineering matters and cannot comment on such matters.

Adjustments are made in this report reflecting the market's reaction (that is, market based adjustments) to the difference in the subject vs. the comparable properties for multiple items; this is due to the fact that no 2 homes are exactly the same. Adjustments were made for items that have most impact in the valuation of a property, such as GLA, basement/basement finish, outdoor use areas (decks/porches/patios), condition, age, bath count, etc.

The appraiser has not identified any purchaser, borrower or seller as an intended user of this appraisal, and no such party should use or rely on this appraisal for any purpose. Such parties are advised to obtain an appraisal from an appraiser of their own choosing if they require an appraisal for their own use. Any reference to or use of this appraisal report by a purchaser, borrower or seller for their own purposes, including without limitation for the purposes of a property purchase decision or an appraisal contingency in a purchase agreement, is at such party's own risk and is not intended or authorized by the appraiser

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and acting in what they consider their own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. (Source: Office of the Comptroller of the Currency, under 12CFR, Part 34, Subpart C - Appraisals, 34.42 Definitions (g).)

Subject's GLA taken from ANSI standard measurements, which are as follows:
Measurements are taken to the nearest inch or tenth of a foot, and the final square footage is reported to the nearest whole square foot. • Staircases are included in the GLA of the floor from which they descend. • Basement is any space that is partially or completely below grade. • The GLA calculation does not include openings to the floor below, e.g., two-story foyers. • Finished areas must have a ceiling height of at least 7'. In a room with a sloping ceiling, at least 50% of the finished square footage of the room must have a ceiling height of at least 7' and no portion of the finished area that has a ceiling height of less than 5' can be included in the GLA. • If a house has a finished area that does not have a ceiling height of 7' for 50% of the finished area, e.g., some cape cods, in conformance with the ANSI Standard, the appraiser may put this area on a separate line in the Sales Comparison Grid with the appropriate market adjustment. The report will be ANSI-compliant and also acknowledge the contributing value of the non-GLA square footage

MARKET CONDITIONS

At this time, the Metro area is experiencing an increase in housing inventory, Interest rates are currently higher than they were one year ago, which has impacted buyer activity. Additionally, the sharp price spike seen 15–36 months ago has moderated, with the market showing signs of stabilization and a slight increase in pricing trends.

HIGHEST AND BEST USE

In order to determine Highest and Best Use, the property must meet the following tests. These four tests are applied in their corresponding order, in other words the test of legally permissible must be met before the test of physically possible may be applied, and so forth.

1) Be legally permissible 2) Be physically possible 3) Be financially feasible, and 4) Be maximally productive

ADDITIONAL COMMENTS
Page 2

Borrower or Owner	Cash & Mackenzie McGregor						
Property Address	3551 Holmead Pl NW						
City	Washington	County	Washington	State	DC	Zip Code	20010
Lender or Client	Paramount Residential Mortgage Group						

Subject meets all four of the following tests.

SALES COMPARISON APPROACH

Comp Search parameters: Appraiser searched subject's specific subdivision and surrounding area(s) , looking specifically for comps that had the similar age, condition, lot size, bed and bath count, etc. Analysis for the data from this area indicated the most similar recent sales were located in the subject's immediate market area (subject is not located in a PUD)

RECONCILIATION

The subject neighborhood contains a range of residential properties that sell across multiple price points. The predominant value reported on Page 1 reflects the statistical **mode**, which represents the most frequently occurring sale price range within the neighborhood. This figure is intended to describe overall neighborhood characteristics and is not necessarily indicative of the subject property's relative position within the market.
As such, the predominant value should not be interpreted as a benchmark for determining whether the subject is over-improved or under-improved relative to surrounding properties. Market analysis indicates that the subject property's estimated market value falls within the established low-to-high value range observed in the neighborhood. Therefore, the subject is considered appropriately improved and consistent with market expectations for the area.

The appraiser's estimate of market value for the subject property is greater than the predominant price within the neighborhood, but does fall within the neighborhood price range. This does not adversely affect the marketability of the subject and the subject is not considered to be an over-improvement for the neighborhood.

Income approach to value was not developed in this report as most homes are not income producing properties (in this area). The majority of homes sales in this area are for owner occupied properties, these sales are what overwhelmingly determine market value, therefore an income approach is not considered necessary or as credible as sales comparison analysis and cost approach, which are included in this report.

SUPPORT OF OPINION OF SITE VALUE

The land value to total value ratio is typical of the subject is greater than 30%, this is due to location factors. This is typical of properties in this area and does not adversely affect the subject's marketability.

COMMENTS ON COST APPROACH

There were insufficient land sales of similar size subdivision parcels within the past 2 years to complete the cost comparison approach. The site value was obtained by the allocation method utilizing a percentage of the value determined in the sales comparison approach.

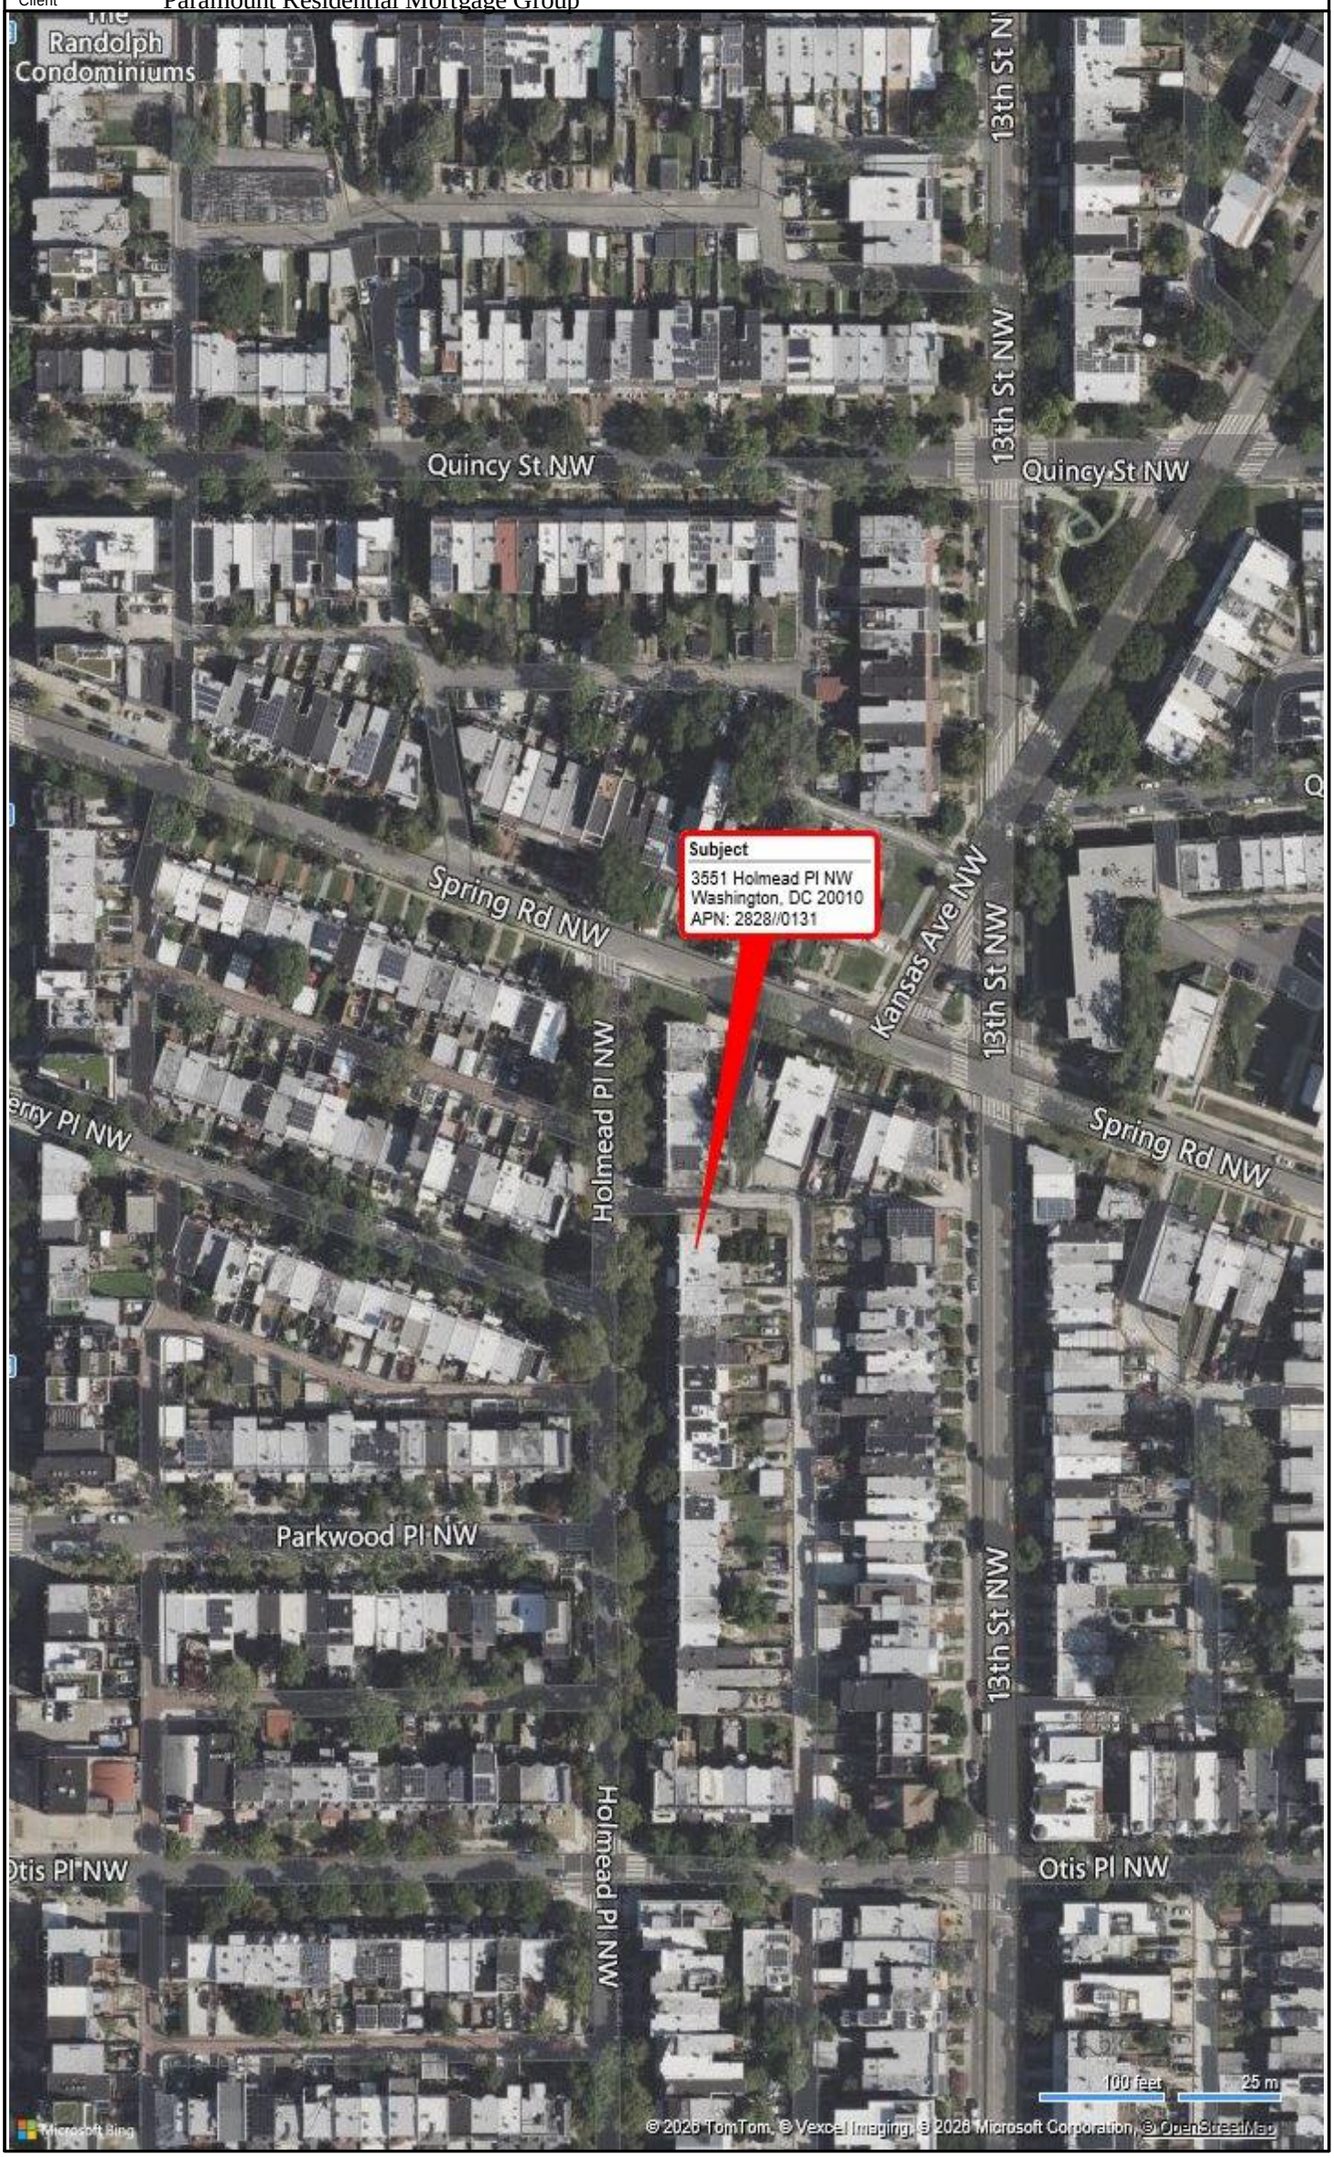

EXTRA ADDITIONAL COMMENTS

Fee paid by AMC for this report was: $350

Verification sources for data in this report are Bright MLS system, realtor data, tax database information. Bright MLS is a 3rd party data provider used by the author of this report. This data provider has no known interest, fiduciary or otherwise, in the subject property.

Market Conditions Addendum to the Appraisal Report

File No. 26100022

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address 3551 Holmead Pl NW City Washington State DC ZIP Code 20010

Borrower Cash & Mackenzie McGregor

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

MARKET RESEARCH & ANALYSIS

Inventory Analysis	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend
Total # of Comparable Sales (Settled)	7	14	10	[X] Increasing [ ] Stable [ ] Declining
Absorption Rate (Total Sales/Months)	1.17	4.67	3.33	[X] Increasing [ ] Stable [ ] Declining
Total # of Comparable Active Listings	6	10	13	[ ] Declining [ ] Stable [X] Increasing
Months of Housing Supply (Total Listings/Ab.Rate)	5.14	2.14	3.90	[ ] Declining [ ] Stable [X] Increasing

Median Sale & List Price, DOM, Sale/List %	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend
Median Comparable Sale Price	1,050,000	1,005,500	1,117,500	[ ] Increasing [X] Stable [ ] Declining
Median Comparable Sales Days on Market	57	7	9	[X] Declining [ ] Stable [ ] Increasing
Median Comparable List Price	1,112,000	954,950	1,000,000	[ ] Increasing [ ] Stable [X] Declining
Median Comparable Listings Days on Market	68	76	20	[X] Declining [ ] Stable [ ] Increasing
Median Sale Price as % of List Price	96.53%	101.26%	100.00%	[ ] Increasing [X] Stable [ ] Declining
Seller-(developer, builder, etc.) paid financial assistance prevalent?	[X] Yes [ ] No			[ ] Declining [X] Stable [ ] Increasing

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). Seller concessions appear to have been reduced due to lack of current inventory available at this time. At this time seller concessions are not typical in most transactions.

Are foreclosure sales (REO sales) a factor in the market? [ ] Yes [X] No If yes, explain (including the trends in listings and sales of foreclosed properties). REO sales have not been a factor in the subject's zip code area for more than 5 years. Sales data (above) from the subject's zip code area indicates that home values here are stable to increasing over the past year.

Cite data sources for above information. Data for this form was compiled from Bright/MLS data from the overlying subject neighborhood (neighborhood is defined for this report as the 20010 zip code), not just subject subdivision. Data from a larger geographical area was used to determine trend analysis as the subdivision data was insufficient for these purposes.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

The data above confirms the comment in additional comments section of report concerning current market conditions. Decrease in number of sales is due to lack of available inventory, not lack of demand in the marketplace. Data indicates that home values have begun to stabilize and or increase slightly. Most recent Case Schiller Index data for the entire Wash., DC metro region indicates slightly increasing values over the past 6 months.

CONDO/CO-OP PROJECTS

If the subject is a unit in a condominium or cooperative project, complete the following: **Project Name:**

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend
Total # of Comparable Sales (Settled)				[ ] Increasing [ ] Stable [ ] Declining
Absorption Rate (Total Sales/Months)				[ ] Increasing [ ] Stable [ ] Declining
Total # of Active Comparable Listings				[ ] Declining [ ] Stable [ ] Increasing
Months of Unit Supply (Total Listings/Ab. Rate)				[ ] Declining [ ] Stable [ ] Increasing

Are foreclosure sales (REO sales) a factor in the project? [ ] Yes [ ] No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

APPRAISAL AND REPORT IDENTIFICATION

This Appraisal Report is one of the following types:

[X] **Appraisal Report** This report was prepared in accordance with the requirements of the Appraisal Report option of USPAP Standards Rule 2-2(a).

[ ] **Restricted Appraisal Report** This report was prepared in accordance with the requirements of the Restricted Appraisal Report option of USPAP Standards Rule 2-2(b). The intended user of this report is limited to the identified client. This is a Restricted Appraisal Report and the rationale for how the appraiser arrived at the opinions and conclusions set forth in the report may not be understood properly without the additional information in the appraiser's workfile.

ADDITIONAL CERTIFICATIONS

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The report analyses, opinions, and conclusions are limited only by the reported assumptions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- I have no (or the specified) present or prospective interest in the property that is the subject of this report and no (or specified) personal interest with respect to the parties involved.
- I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
- My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- My analyses, opinions, and conclusions were developed and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.
- This appraisal report was prepared in accordance with the requirements of Title XI of FIRREA and any implementing regulations.

PRIOR SERVICES

[X] I have **NOT** performed services, as an appraiser or in any other capacity, regarding the property that is the subject of the report within the three-year period immediately preceding acceptance of this assignment.

[ ] I **HAVE** performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.

PROPERTY INSPECTION

[ ] I have **NOT** made a personal inspection of the property that is the subject of this report.

[X] I **HAVE** made a personal inspection of the property that is the subject of this report.

APPRAISAL ASSISTANCE

Unless otherwise noted, no one provided significant real property appraisal assistance to the person signing this certification. If anyone did provide significant assistance, they are hereby identified along with a summary of the extent of the assistance provided in the report.

Data entry assistance from ieImpact Data Entry Service (summary of assistance: entry of subject and comp data, maps, 1004MD data, etc). All data entered was provided by the appraiser of this report.

ADDITIONAL COMMENTS

Additional USPAP related issues requiring disclosure and/or any state mandated requirements:

MARKETING TIME AND EXPOSURE TIME FOR THE SUBJECT PROPERTY

[X] A reasonable marketing time for the subject property is 30 day(s) utilizing market conditions pertinent to the appraisal assignment.

[X] A reasonable exposure time for the subject property is 90 day(s).

Requirements - Condition and Quality Ratings Usage

Appraisers must utilize the following standardized conditions and quality ratings within the appraisal report.

Condition Ratings and Definitions

C1 - The improvements have been very recently constructed and have not previously been occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

**Note: Newly constructed improvements that feature recycled materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100% new foundation and recycled materials and the recycled components have been rehabilitated/re-manufactured into like-new condition. Recently constructed improvements that have not been previously occupied are not considered "new" if they have significant physical depreciation (i.e., newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).*

C2 - The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

**Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.*

C3 - The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

**Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.*

C4 - The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

**Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property*

C5 - The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

**Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.*

C6 - The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

**Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.*

Quality Ratings and Definitions

Q1 - Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified use. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are exceptionally high quality.

Q2 - Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residences constructed from individual plans or from highly modified or upgraded plans. The design features detailed high-quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q3 - Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4 - Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5 - Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6 - Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated - Little or no updating or modernization. This description includes, but is not limited to, new homes. Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated - The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost. An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled - Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion. A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls and/or the addition of square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example: 3.2 indicates three full baths and two half baths.

Abbreviation	Full Name	Appropriate Fields
A	Adverse	Location & View
ac	Acres	Area, Site
